1 IRC Channel for mod_perl

1.1 Description

If you want to get some help with mod_perl, or just want to discuss mod_perl-related things, you might want to check out the mod_perl IRC channel.

1.2 The IRC Channel

Although there is nothing "official" about, mod_perl people usually hang out on the *irc.rhizomatic.net* IRC server (on port 6667), on the channel *#modperl*.

You might also want to check in at the *#axkit-dahut* channel where many mod_perl people hang out for non-serious talk, and the *#axkit* channel for AxKit related talk. See http://axkit.org/irclog.xml for more info.
